

You appear to be enjoying  
your life at this time. Before  
you start writing my words  
I want to make it clear  
that I am a lady, and  
always was. I say that  
because I know your  
mind translates the  
words with your mind  
voice, which is of a  
man, of course. Believe  
me, I am of the female  
gender. You may never  
have known of me  
when I was your side.  
There's something for you

to think about!

You're not thinking in your mind a spot while ago about where those people that have some growing go, as they don't all merge into the higher world.

The wrong - whs, is the people I'm describing.

Your measure of how tall about our work as being made up of levels, comes, or regions.

The challenge you have when you use

these types of terms you  
all typically view these  
worlds as just that. Levels  
suggests flavor for example.  
James suggests separated  
areas. Can you see the  
problem.

All the descriptive words  
are somewhat correct  
though. May I try  
and offer my simplified  
version, as I have come  
to understand it?

There of course is the  
first challenge - we  
don't have access

to others not in our  
living world.

On earth gem. have  
transistor radios and  
~~my~~ favourite ones used  
to be those with a  
tuning knob that moved  
an indicator along a  
marked dial.

When I am tuning  
in my world is akin to  
one of the radio stations  
at a given frequency.

But when you turn the  
dial on the radio,  
sometimes only a little

but, you turn it to another radio station. That is how to best consider this life here...

The majority of people that cross back here return into this world where I am living. But the very few ones from earth, and I do mean the very bad, transfer to an alternative "radio frequency" where they might continue to learn and grow.

Equally, those few that

have devoted their lives  
to God. The Divine and  
the betterment of  
others may transcend  
to another "radio frequency".  
Your mind is asking me  
so many questions. Give  
me a moment to explain.  
No matter what frequency  
people transcend to after  
earthly death, each  
soul has access to their  
loved ones if they  
choose. Often they don't.  
However those loved  
ones are not residing

on their dimension.

May I suggest, as I  
always used to, that  
you take time to read  
Commencements with God  
once more. It has been  
a long time since I told  
you about that book  
and you reading it.

You've come a long way  
since then. It would  
be useful for you to  
brush up.

Yes my boy, you were  
very quick in realizing  
who I am. During this

session, your mind has  
been filling with all  
the memories of your  
past.

I heard about the work  
you were doing and  
wanted to be part of  
it for the occasion.

I do keep an eye  
on some of my old  
students, but from  
your group, only one  
or two have stayed  
with the work. I always  
knew you would.  
Would you allow me

to direct by again soon?  
Will you meet to  
visit the book I talked  
about. I'll know if you  
meet it again.

I'll talk again soon  
my best  
Cordell
