

What would you like to hear
from me these days.

Were you hoping for
words of wisdom that might
offer you some light on
your spiritualistic journey?

What words do you believe
would serve such a purpose?

Be careful my friend.

I respect how important
learning is and the role
it can play in one's
development but you
above all others should
know by now that no
matter what words I share

with you, or anyone reading them, they become hollow and without depth of meaning without being acted upon.

Mediumship is easy. It's the medium that makes it complicated. Too many squishers act to slow, inhibit and confuse the individual.

* I've stopped writing them, because you heard no words. That is because I didn't have any! But that serves to prove

how strong your connection
to this side is. If only you
would believe that a
little more.

You have so many talents
and abilities. Many are
going to waste because you
don't explore them
enough. Let me share
a lesson with you.

If I were to give you
a piece of steel rod,
the length of a mile
and instructed you
to rub it on one
side, backwards and

Instructions with one finger
until I told you to stop.

If I were to leave you
to myn ability or that steel
bar for a number of years
before I asked you to
stop, you would not
a ~~ground~~ into the bar.

What would that prove
to you. That you have
the power to overcome
even steel? Perhaps so.

But the biggest lesson
should be that if
you keep doing the
same things long

Enough, without change,
question or reason, you
would only serve to
create a groove. A mit
for your finger. Nothing
would be learnt by
the finger, only to rub.
People do this all the
time, especially with
their measuring.

They prefer the comfort
and familiarity of
repeating what they
feel works best for
them. But if they
were to experiment

than membership with
a more experimental
approach, they might
discover better ways
better abilities, new
skills and clever
methods for communication.
You see, instead they

of your readers. Your mind
remains open to all possibilities
and to learning better
ways to progress your
work. That is
all you need to do.

There really aren't
any colorful or rich
words that I could
show that might
transform your med work.
Only you have that
ability.

You are currently
reading Alyn Edmonds
book again. This

great man always talked
of potential in tapped
within yourself.

The key word there
was not "potential". Instead
it was "untapped".

No matter how long
each of you live on the
earth, I can reassure
you that you'll never
find the music
answers you believe
you are seeking.

So waste no time
expecting to. Just
keep on experimenting

with your relationship. If
you find a technique that
works, don't just stay on
it and accept it for what
it is. Instead, realise
you know it works, and
bring your attention to
finding other ways that
work too.

I'm engaged & excited
with you. I hope I've
shown nothing of
real value in my words,
other than that you
have all the answers
you need. Go find

other ways to make
us always on side. I will be
richer for the method.

Goodbye
