

Good morning. You wanted to know a little about Ryan. Excuse me if I've got that name wrong, but that's what you were thinking. We know of that fella. He's what you term a bit of a free spirit, very much with his own set of values and beliefs. He is actually aware of who he is and where he is in this world. Inside, he is a confident man, comfortable with his self. But we all

know that there are two personalities, the outer, public one, and the inner self. With Ryan the inner self is in a happy space.

His Ryan's outward side that often appears to be lacking certain finesses. But he is strong inside himself and although others might feel they know his faults, he is more aware of them than anyone else. But although

he's aware of such matters,  
he's not torn apart by  
them. He yearns stability  
and doesn't take to changes  
as quickly as others.

I am reluctant to be  
too intimate with his  
personal details too  
much for he is not  
present and it would  
be beyond my belief  
to go too deeply into  
such matters. All I  
will share are aspects  
of him that he would  
be comfortable hearing.

When it comes to love and his relationship with it, he does struggle at times. He admits his sense of provocation, you might call it, when he appears super confident. But that his hiding his inner feelings when he is more sentimental, caring and wanting to show a love he can't always project.

This is linked with his often forthright ability to make quick

decisions when they are needed. He prefers to brood on things, like an old hen and wait. He has made so many rash decisions in his past that he's learnt from those mistakes.

Ryan is an artistic person. Not in the drawing sense of the meaning, but in the way he likes order, symmetry and tidiness in his matters. I call this artistic because he

solves his own problems  
and always finds the  
right solutions for  
himself eventually.

If he were given a bag  
of nails and a saw  
and wood, he would  
create quite a masterpiece.  
Like so many men though,  
he doesn't pay enough  
attention to his own  
health. He's not really  
worried about  
at this time, but should  
something arise, he  
would rely on those

close to him to force  
the action required.  
Ryan's mother, and this  
medium's friend, Amanda  
does like to mother him  
a lot. Her love for Ryan  
is powerful and often  
appears over protective.  
I might add that  
she has more trust  
and faith in him. He  
is more in control of  
his life than she might  
believe.

Now, what's on the  
horizon for Ryan?

Ryan will be married within the next few years and may be talking of moving overseas the country. He will be faced with opportunities that will be too much for him to turn away from.

By the way, his wife is already in his phone contacts, I've been made aware of.

Ryan is aware of spirit and after knowledge believes a friend he lost

to this side is with him.  
He is. He would understand  
the name of Tom around  
him.

Amanda, you have a fine  
young man in Ryan. He  
is a remarkable person  
and will always  
stand by you, through  
thick and thin.

look into his eyes  
and see how deep  
his soul is. If all  
young men were like  
Ryan, the world would  
be a better place.

My medium today did  
all in allowing me  
to merge my words  
with his natural  
tendency to use his  
mediumship.

Amanda has a strong  
team of guides this  
side working with her.  
Recognise their men  
and harness the power  
they offer.

I must leave now.  
Thank you for allowing  
me these words.

Goodbye.
